

12/1/11

Members and Interested Parties,

We received notice that two members of the Flood Control Board are not available to meet Monday, December 5th. Because A-N West's presentation will entail a lot of information, we would like to have him make his presentation when all of the members are likely to be present. Therefore, we are cancelling the December meeting.

Additionally, we are cancelling the January 2, 2012 meeting because Town offices will be closed that day for the New Year's Holiday.

Therefore, our next regularly scheduled Flood Control Board meeting will be held on Monday, February 6, 2012.
